

Welcome to

META FUEL GLOBAL

Don't underestimate the power of your network

'Make your aspirations a reality through the decentralized platform META FUEL GLOBAL'

META FUEL GLOBAL

■ About META FUEL GLOBAL

Meta Fuel Global is the decentralized smart contract for the global system, Meta Fuel Global allows you to build your international business and open global account opening opportunities.

Meta Fuel Global is a decentralized platform based on smart contracts that connect people from all over the world and open the limitless possibilities of the new economic-financial system.

METAFUEL GLOBAL

■ WHAT IS CRYPTO CURRENCY ?

A cryptocurrency is a digital or virtual currency that is secured by cryptography, which makes it nearly impossible to counterfeit or double-spend. Many cryptocurrencies are decentralized networks based on blockchain technology—a distributed ledger enforced by a disparate network of computers. A defining feature of cryptocurrencies is that they are generally not issued by any central authority, rendering them theoretically immune to government interference or manipulation

METAFUEL GLOBAL

■ What Is a Smart Contract?

Smart contracts, like cryptocurrencies, are decentralized. They work strictly according to the underlying program, without the possibility of subsequently challenging the defined execution. The code that contains all the logic of the contract expiration is on the blockchain and all calculations are provided by millions of computers around the world. This ensures that there is no risk of hacking into the smart contract and stopping the project. The blockchain is an immutable record of transactions and information, which is cryptographically protected from any subsequent manipulation using thousands of independent computers worldwide.

META FUEL GLOBAL

Binance Blockchain is a decentralized, open-source blockchain platform launched by Binance, the world's largest cryptocurrency exchange. It aims to provide a scalable, secure, and efficient infrastructure for building and deploying decentralized applications (dApps), smart contracts, and other blockchain-based solutions.
